VOLUME 37: No. 31

ACME, ALBERTA, THURSDAY

AUGUST 28th, 1958

\$1.50 a Year; 5c a Copy
\$1.50 a Year; 5c a copy

Mr. and Mrs. Walter Martin have taken up residence in the Emil Rempfer house after their marriage Aug. 23rd at Oids. Welcome to Carbon Mrs. Martin.

A surprise was held Saturday evening at the home of Mr. and Mrs. Otto Martin in honor of Bobby O. Thacker, who left on Friday for Bob Jones College, North Carolina. The evening was spent in several forms of entertainment. The guest of honor was presented with a pen and pencil set and also many personal gifts. The evening closed with the well wishes of all the young people present. We wish you every success in the coming year Bobby.

We are sorry to report that Mr. Frank Harris has been a patient in the Three Hills hospital. We wish him a speedy recovery.

Activity is all agog up on the hill where the new Gas Company camp will be located while finishing the last lap of the Carbon to Calgary Pipe Line.

Visitors at the home of Mr. and Mrs. Fred on Friday Aug. 22 were her son and daughter-in-law and family, Bdr. and Mrs. F. T. Meyer of Picton, Ontario, Mr. and Mrs. A. Meyer, Mr. and Mrs. S. Mayer and families of Calgary, Grandson Bill Meyer and girl friend. On Saturday they all left for Hanna to visit Mr. and Mrs. H. J. Schultz. Mr. and Mrs. C. Schultz of Endiang. They returned home to Carbon and later left for their homes after a grand visit.

Mr. George Trepanier left on Tuesday for Viking and Edmonton where he will visit Mr. and Mrs. Hood and family.

The Fish and Game have awarded prizes as follows:

1st Prize—Rifle won by Albert Charlebois, 249 prs. of feet.
2nd Prize—Fishing Rod and Reel won by Gordon Snell with 218 prs. of feet. Total for 1958 was 1374 pairs of feet.

Nice going boys.

Mrs. Kent Schacher motored to Medicine Hat with her oldest son from Edmonton.

Albert Snell shipped the first carload of 1958 matting barley. Ted Schmidt was the elevator agent.

Mr. and Mrs. Chas. Graham have returned home after spending the past month at Whitecourt. Red Deer and Sundre.

Don't forget the Cabbage Tournament Oct. 15th in the Legion Hall sponsored by the Ladies Auxiliary 161. Place your entries early. Phone 70, 64 or 804.

GAMBLE NEWS

Mr. and Mrs. Tom Hanson and family and Larry Gibson were visitors at Carleton Place for a few days.

Mr. and Mrs. Steve Varga are out harvesting for a few weeks.

Mr. and Mrs. Steve Homeniuk and family of Calgary were visitors at the home of Mr. and Mrs. J. Metzger and Mr. and Mrs. Archie Metzger.

Mildred Craddock has returned home after spending the holidays at the homes of her aunts and uncles Mr. and Mrs. W. B. McCracken and Mr. and Mrs. Irvin McCracken.

We are glad to report that Bert McCracken is recovering from a bout with the flu.

Mrs. Eva Anderson went to Calgary on Wed. to meet her mother of Red Lodge, Mont. Barbara and Caroline returned with her after spending the past six weeks with their gran-

parents.

Anyone wanting a puppy get in touch with E. Rempfer. Their dog has just given birth to a litter of eleven puppies.

The harvest will be held up for quite a while with the rain.

ACME FLOWER, VEGETABLE & GRAIN SHOW

Once again the Acme Flower Show held Aug. 20 has been classed among the best of the town and district shows, showing an increase of entries over 1957—a total of 509 altogether. Particular thanks should go to those who brought in their exhibits to make it such a success, and to those who left their flowers to be taken to the cemetery the following day.

Some of the classes were outstanding; for example there were 40 centrepieces in the three classes, and although they could not all receive prizes they certainly all deserved honorable mention. The novelty class of the Petite Hat Shop, the Wrestling Ring and the Tortoise and the Hare were certainly viewed with interest. There were only three entries in the collective vegetable garden, all exceptional, and the judges had little to choose between the three.

We were fortunate in again having Mr. P. D. McCalla, Provincial Supervisor of Horticulture, to judge our Show assisted by our District Agriculturist Mr. Stan Pettem. The judges gave those who attended the tea the benefit of their comments about the show and Mr. Pettem brought greetings from the Drumheller District Agricultural Society who again kindly assisted with the financial prizes.

A large crowd enjoyed the lovely tea served by the ladies of the Royal Purple Lodge. Prize winners follow:

THANK YOU

We the parents of the Little League Ball Club wish to thank Bernie Stubbart and Dale Poxon for all the time, effort and personal interest they have shown in our boys, which resulted in such a fine lot of good sports and dandy ball players. Also for a wonderful time and good showing in Calgary at the All-Star tournament.

IN MEMORIAM

SPRY—

In loving memory of Eli Spry who passed away Aug. 23rd, 1956:

"Our thoughts drift back To bygone days—

Life moves on

But memories stay."

Ever remembered by his Wife and Family.

CARD OF THANKS

We wish to express our sincere thanks to our friends in Carbon and district for their kind expressions of sympathy shown to us during our recent bereavement. Also the many kindnesses shown to Mother while she was a patient in the hospital.

Eileen & Bill Thorburn & girls

Hunting starts
in six weeks —
prospects good

Start sharpening up your shoot-
ing eye, men! Hunting starts in
six short weeks and the prospects
look bright.

A. T. Davidson, assistant deputy
minister of natural resources, said
that both upland game bird and
big game hunting should be as
good as, or better than last year.
Ducks, although reduced in
numbers from last year, will be
concentrated more in the bigger
water areas, due to lower water
levels this summer. However, the
population concentrations will, if
anything, improve waterfowl hunt-
ing.

Sharp-tail grouse show an in-
crease in numbers in some areas
over last year, while most other
upland game bird populations are
about the same.

Deer are up over last year, elk
about the same and moose are re-
ported down slightly, but not
enough to affect hunting at all.

Mr. Davidson said bear were as
thick as ever and urged heavier
hunting of this big game species.

GOOD RESULTS

During the last six years, con-
tinued efforts to improve Cana-
dian National Railways freight
train performance have resulted in
greater loads per train, longer and
faster trains and thus better
train performance.

Some beetles protect themselves
from enemies by emitting an evil-
smelling secretion.

R. J. Fyfe Equipment
Ltd.

Regina, Sask.

MORE THAN 100 DELEGATES attending the Saskatchewan Weekly Newspaper Association Con-
vention in Saskatoon, Saturday morning toured the Saskatchewan Power Corporation's new 40 million
dollar Generating Station pictured above. Delegates were shown the various components that constitute
a modern power generating station, the immensity of the boilers, turbines, coal handling facilities,
and told of problems and difficulties encountered in the construction of power generating facilities. A
welcome to the plant was extended by P. Padget, plant superintendent and Charles Smith, Public Rela-
tions Director from Regina. Coffee and a light lunch was served in the auditorium.

PROMPT PAYMENT—The reputation built up by the Saskatchewan Government Insurance Office
for prompt payment of claims is graphically portrayed in this picture. Less than 24 hours after fire de-
stroyed his place of business, Qu'Appelle drug store operator A. C. Conlan (centre) receives a cheque
for settlement of his claim from S.G.I.O. adjuster, Doug Edelman (left). In the background, a Qu'Appelle
fireman pours water on the still smouldering ruins, the result of last week's fire which leveled a business
block. The picture was taken at 10:40 a.m., the day after the fire. On the right is S.G.I.O. Director of
Advertising and Promotion, Norman Runtz.

4-H competition
at Regina

Brian Duck of Regina topped
all competitors with his show-
manship in the Saskatchewan
4-H dairy calf club competitions
at the exhibition. Grant Thomp-
son of Fairlight was runner up
and Bettie Duck of Regina came
third.

Grant Thompson showed the
best calf, Linda Ennis' Glenavon
calf was judged second best and
the entry of Carol Strudwick of
Balgonie was placed third.

In the class for two-year-old
heifers, Brian Duck's entry came
first, Grant Thompson's second,
and Ron Down's heifer from Fair-
light third.

Gary Nicholas of Milestone
won in the beef heifer class; Ted
Freitag of Alameda was second
and Betty Cottingham of Mile-
stone was third. The Oxbow-
Auburnton 4H club won in the
class for two heifers from one
club.

Kim Woolfitt of Auburnton won
for showmanship in the beef class.
Ted Freitag was second and Irwin
Catiey of Craven third.

Fruit "dumping"

The M.P. from Prince Edward-
Lennox suggested in the Commons
recently that "we should sit down
and negotiate" with United States
processors and producers on prob-
lems caused by U.S. "dumping"
in Canada of canned fruits and
vegetables.

Mr. Milligan said seven can-
ning factories in his riding had
closed and they had not closed be-
cause they were inefficient.

Approximately 37 percent of
the continent of Europe is farm
land.

Such
melting
sweetness!

These tea-time treats will appeal
to young and old alike with their
delicate taste, light texture and attractive shape.
When you bake at home, they are easy to make
with Fleischmann's Active Dry Yeast.

DUTCH DOUGHNUT TWISTS
(Crunlers)

1. Measure into measuring cup
1/2 cup lukewarm water
Stir in

1 tsp. granulated sugar
Sprinkle with contents of
1 envelope Fleischmann's
Active Dry Yeast

Let stand 10 mins. THEN stir well.

2. Cream in a large bowl
1/4 cup shortening
Blend in

1/2 cup granulated sugar
1/4 teaspoon ground mace
1/2 teaspoon salt

2 well-beaten eggs
Add dissolved yeast
1 teaspoon vanilla

1 1/2 cups once-sifted
all-purpose flour
and beat until smooth and
elastic. Work in an additional

1 1/2 cups (about) once-
sifted all-purpose flour

3. Turn out on floured board;
knead until elastic. Place in
greased bowl. Grease top.

Cover. Let rise in warm place,
free from draft, until doubled
in bulk—about 1 1/4 hrs.

4. Punch down dough. Turn
out on floured board; roll
into an 8 x 12" rectangle.

Cut dough into 24 strips, 1/2"

wide and 8" long. Fold each
strip in half; twist lightly and
pinch ends together. Place on

lightly-floured cookie sheets.
Grease tops. Cover. Let rise
until doubled in bulk—about

3/4 hr. Deep fry in fat, heated
to 375°; cook until golden,
turning once. Drain on ab-

sorbent paper. Coat warm
crunlers with a mixture of 3/4
cup granulated sugar and 1 1/2

tsp. ground cinnamon. Yield
—2 doz.

MILK BREAK—Army Cadets lined up for a glass of milk during their morning rest period. Carigan, Ponteix, Sask.; V. Bellegarde, Balcarres, Sask., and F. A. Pelgan, Fort Qu'Appelle, Sask. —Canadian Army photo.

(The Plaindealer, Souris, Man.)

BUFFALO that once roamed the prairies in millions are now an interesting sight in the Riding Mountain animal enclosure at Lake Audy. The herd at the park is the second largest herd in existence.

\$15,000 Canadian Derby to run at Edmonton track

What promises to be the greatest racing session in the colorful history of the Canadian prairie turf—Edmonton's 14-day autumn meeting—will get underway at the Edmonton Exhibition's half-mile oval on Friday, August 8, and run through until Saturday, August 23.

The richest races in all major divisions on the 1958 Western Canadian turf calendar are slated for decision during the meeting which will attract more than 500 horses and the finest riding colony in more than 30 years of organized racing on the prairies. — The Edmonton Sun.

Crippled girl sees Princess

A kindly policeman made certain that crippled Alma Webster saw Princess Margaret recently.

The 14-year-old girl from Lakefield in the Peterborough area came to Toronto to see medical specialists. She was on her way to catch a train back home from Toronto's Union Station when she became involved with crowds waiting to see the princess leave the Royal York Hotel across the street.

Alma, who has lost the use of her legs, couldn't see from her wheel chair. So police constable Lochlin McLachlan, formerly of Saskatoon, took her out of the crowd, set her about 10 feet from the royal car and moved guards out of her line of vision.

Then the 265-pound, six-foot-four policeman named the dignitaries for Alma as the royal party left the hotel.

"The princess waved right at me and I waved right back," said Alma. "I feel really nice inside."

The trumpet call of the whooping crane can be heard for about three miles.

Visit the Tree Planting Car

Meetings are held in the Car at each point on the itinerary, at eight o'clock in the evening. When schools are open, arrangements are made with the school authorities to have the Pupils visit the car during school hours. Sound films show the results obtained by farming people through planting trees, and give practical instruc-

tion in tree planting and home beautification. An illustrated talk covers planting methods, which trees to plant, the laying out of a shelter belt, and planning the home ground, with information on the care of trees and shrubs. A question period follows each evening meeting.

Canadian Weekly Features

In choosing the name "d'Iberville", Canada's Department of Transport turned back the pages of history to find one that would remind Canadians and all who have thrilled to the stories of Canada's picturesque past, of one of this country's great heroes: Pierre Le Moyne d'Iberville.

Pierre Le Moyne d'Iberville, the third son of Charles Le Moyne de Longueuil, was born at Montreal in 1661. He was the first Canadian by birth to achieve fame in the annals of this country's beginnings. His exploits of daring and his undaunted courage in Hudson's Bay; his discovery of the mouth of the Mississippi River; his efforts in pioneering and establishing a fort on the site of the present city of New Orleans and his fame as the first Governor General of Louisiana, when that tract of land was a colony of France, has engraved his memory on the hearts of his countrymen and has made the name "d'Iberville" synonymous with adventure, exploration and accomplishment.

Because of the growing prominence of Canada's Northland and of water transportation in Arctic waters, by 1945 it had become evident that a new icebreaker would be required to augment the existing high standard of vessels used in the expanding Arctic service.

Plans were immediately made for a new icebreaker to be adequate for supplying far northern stations. The icebreaker "d'Iberville" was designed not only to be rugged and self-reliant in heavy ice, but capable of carrying a large number of personnel and cargo to the farthest outposts of Canadian civilization with a degree of comfort and safety never before attempted.

"d'Iberville's" duties do not, however, end with Arctic assignments. The importance of ice-breaking to the economy of Eastern Canada has been well established over the years, and it is necessary to furnish St. Lawrence and Saguenay River ports and the ports of the Maritime Provinces with regular spring and winter icebreaking.

Many of the ports of Canada's eastern seaboard are open all winter but some of these require ice-breaking assistance when beset by wind and tide-controlled pack ice which would otherwise pile up and block harbor channels.

Fully Canadian designed and Canadian built to specifications which were based on the knowledge gained from years of Arctic travel and icebreaking duties, the 5,678 ton icebreaker "d'Iberville" is a proud addition to Canada's Arctic fleet, which includes "N. B. McLean", "C. D. Howe", "Montcalm", and "Edward Cornwallis".

Propelled by a set of twin screws powered by two specially designed engines, the "d'Iberville" has the power to carry a crew of 75, some 50 passengers and better than 400 tons of cargo through the heavy ice flows in Canada's Arctic. Her huge fuel tanks will carry her 12,000 miles without refueling.

The "d'Iberville" is fitted with a flight deck for the two Bell helicopters that are part of her equipment. These craft, which have proven their worth in Arctic travel, are carried for low level aerial photography, charting, rescue work and long-range navigation through uncharted waters. A hangar for these craft, complete with repair shop, provides shelter for both helicopters and makes it possible to keep them in prime condition, an entirely new innovation in aircraft storage aboard ship.

Double radar protection, depth indicators and gyro compasses give the "d'Iberville" the advantages of every known aid to navigation. The "d'Iberville's" modern hospital includes a sick bay, X-ray room, a dispensary, and an operating theatre, while its dental facilities would make the most elaborately equipped shore-bound dentist envious.

Everything possible has been done to provide passengers, ship's officers and members of the crew with comfort, recreation and safety on a scale never before attempted on a ship of this class.

Assignment in the High Arctic

Operation "Nors '58" gets underway for Canada's powerful icebreaker *d'Iberville* on July 23rd when the twin-screwed, 5,678-ton vessel departs Montreal for her 7th

annual summer cruise to far-northern waters, pathfinding for supply ships bound for isolated settlements and RCAF outposts and weather stations in the Arctic.

d'Iberville's barge, laden with supplies, is greeted by Eskimo settlers and Royal Canadian Mounted Police officer (left) at Pond Inlet, N.W.T. Members of the local

population requiring medical or dental services will receive expert attention in *d'Iberville's* well-equipped, ultra-modern laboratories.

Canadian designed and built, *d'Iberville's* trim lines and sturdy construction are the result of years of navigational experience in northern waters. She carries two helicopters for rescue work and aerial reconnaissance.

Two of *d'Iberville's* crew measure depth of ice (between 7 and 12 feet thick) in Norwegian Bay. When not engaged in the Arctic, *d'Iberville* is employed keeping Canada's eastern seaports and the St. Lawrence free of ice-jams.

HIGH PRESSURE SPRAYING MACHINE used to spray farm yards, buildings, lanes, garbage cans and nuisance ground. Ervne Gellner, Coronach, operates the machine. —Photo by J. J. McConnell.

Rural, urban centres co-operate for fly control

There are no flies on the people in the village of Fife Lake or on farms in the districts of Fife Lake, Rockglen and Coronach. Flies in these districts have been killed and breeding grounds destroyed with a mixture of chemicals applied through an ordinary high pressure farm sprayer owned by the rural municipality of Poplar Valley.

In the village of Fife Lake some 60 family homes and business places had garbage cans, lanes, backyards, outdoor toilets and nuisance grounds sprayed. The work was done in less than six hours for a total cost of \$50.00.

Alex McLean, overseer of Fife Lake states, "the results of the fly control work which the village council had done are very good. Compared to other years we have no flies at all." He added, "if other parts of the province would carry out similar control measures we would soon do away with the fly menace."

The fly control program was encouraged by Lorne Kimball, of Constance, municipal secretary-treasurer of the R.M. of Poplar Valley; Charlie Gellner, Coronach and Lex Rutherford, Ag. Rep. at Ogema. Lorne Kimball helped to start the ball rolling when he experimented with a chemical mixing the spraying machine he

ture of malathion and DDT. This knocked out flies clustering around his house lights in the yard. Local councillors and agricultural committee men provided a high pressure sprayer and campaign plans caught fire.

The Council of the R. M. of Poplar Valley hired Ervne Gellner, Coronach, to operate the outfit. He promptly loaded the equipment on his half-ton truck and was ready for business.

Since Ervne Gellner started op-

24-hour telephone service starting

Twenty-four hour telephone service will start for the first time in 97 Saskatchewan communities September 1. On that date Saskatchewan Government Telephones will extend its round the clock service to include all centres with over 200 telephones.

Craik will be included in these centres.

The policy of extending service was first announced by Labor Minister C. C. Williams during the 1958 session of the legislature.

Cost of the project is estimated to be more than \$316,000 a year. Less than half of this will be recoverable from adjustment in the customer's regular service charges, however, with the extra hours of service an increase in long distance business is expected.

When the 24-hour service goes into effect, monthly charges for private line service for exchanges with 200 to 500 phones will be \$2.25 for residence and \$3.25 for business. For exchanges of 500 to 1,000 charges will be \$2.40 and \$3.75 respectively.

The switching fee payable to SGT by rural telephone companies which go on 24-hour service will be increased by \$1 per year per subscriber.

Thirty-five other centres which have had continuous service under special arrangement will be classified into the system's practice of monthly billing.

After September 1 when the service includes 25,000 additional rural telephones and 15,000 local ones, SGT officials estimate that 91 percent of their subscribers in the province will have 24-hour service.—The Weekly News, Craik, Sask.

has sprayed over 400 groves of trees for aphid and cankerworm control, large numbers of livestock for warble and lice control, persistent perennial weeds, livestock buildings, garbage cans, and yards.

Charlie Gellner, Coronach, is one of several farmers who sprayed livestock buildings, farm yards, and the outside walls of his home. "Effects of the spray last for weeks and it appears to gain renewed strength after every rain," states Mrs. Charlie Gellner. "It's wonderful. It has really taken care of the flies here, even the dog's milk dish on the outside step is free of flies. I can even leave the screen door open," she added with an approving smile.

The chemical mixture for house and barn flies consisted of five gallons of DDT; 1½ quarts of malathion and one quart of creolin. This was added to 200 gallons of water and mixed in a high pressure sprayer. "We've had good results for four weeks or more after spraying barns with this mixture," states Ervne Gellner. "Two sprayings per year during the fly season is very effective. For most effective control of flies, a complete clean up program should first be done on a community basis. That destroys their breeding places. Then get the remaining flies with your chemical sprays."

Spraying farm yards and trees costs 25c per gallon; warbles 15c per head; lice 15c per head, and disinfecting premises 25c or more per gallon depending on the type of job. The cost of fly control for an entire farmstead is approximately \$6.00 for one treatment. "Costs will go down," states Lorne Kimball, "as more people make use of this service."

Cost per gallon of chemical spray varies with the contents of the mixture and the time required to apply it.

High pressure sprayers of the piston type are recommended for applying spray chemicals. Machines which produce 400 pounds air pressure in tanks provide the most effective use of spray chemicals for all jobs. Boomless farm sprayers of which there are several dozen in the area will provide 120 pounds pressure. These machines can be used successfully for all insect control work with the exception of warble control which requires spray pressures of 400 pounds.

The Saskatchewan Department of Agriculture has assisted municipalities and organized groups of farmers to buy high pressure sprayers. The Department will pay one-half the cost of sprayers to a maximum of \$400 per machine. Districts which have used this policy and have purchased high pressure sprayers include Lake Alma, Minton, Coronach, Rockglen, Ceylon, Willow Bunch, Pangman and Viceroy.

Flies are a threat to human health. Many people will not tolerate the presence of a fly once they know how a fly's digestive system works. Flies do spread diseases of many kinds.

The unwary producer may have his income from livestock reduced by flies and other insects which pester stock in many ways. Flies also annoy poultry.

The provincial departments of agriculture and public health fully approve of community insect control programs. Fly control can reduce the threat to human health and up the income from livestock.

Happy birthday to us...

(The Daily Graphic, Man.)

Birthdays are a time for reviewing past accomplishments, for accepting congratulations, and for planning the future. Canada, Tuesday, will celebrate its 91st birthday.

The years since Confederation have brought changes that would bring surprise and amazement to the eyes of many of this country's founders; but not, we suspect, to John A., that grand old visionary who saw a far-flung nation linked by ribbons of steel and taking its place among the world powers.

The first 100 years of Canada are 'to grow on', by 1967 this nation will be ready for the second stage in its development, and will begin to acquire the poise and sophistication of maturity.

Before we become fully mature, we must become more easily recognizable. Most people manage this with a name. In the case of business firms, a trade mark is the identifying symbol. In the case of nations, a flag is used. Canada still has no flag.

We have the ensign, borrowed from one of the nations which helped develop our nation, and we are proud of its jack and red field. But we need more than the 'family name' signified by the ensign. We need a christian name, and a flag of our own.

Our present Prime Minister has spoken often and long of his 'vision' for a great Canada. Perhaps, as a beginning, he might set some of his bulky majority to work sifting the thousands of designs suggested for a Canadian flag.

Our nation has come a long, long road since 1867. More and more Canada is assuming a dominant place and speaking with an authoritative voice at the councils of nations. We can be as proud as any peoples on earth at our 91st birthday party. But let's try to arrange things so that we can do a little literal 'flag waving' at our next birthday party, next July first.

In the meantime, it's been a wonderful 91 years, and we're getting livelier and more spry every year. Happy birthday to us!

Better publicity needed

(The Manitoba Leader, Man.)

In Island Park, Portage la Prairie has a valuable asset, and one which is not being fully exploited. The park should be better publicized and made easier to find.

The same holds true of the Chamber of Commerce Tourist information office on Saskatchewan Avenue. The office performs a notable service to the travelling public, but most motorists from outside our area pass the office before seeing it.

To take Island Park, first, it is not uncommon to see travellers from other provinces or from the United States, parked on the shoulder of the Trans-Canada highway near Portage, having a picnic lunch in the ditch or in some farmer's field. These people would obviously prefer the beautiful and convenient location at our park, but are unaware it is here.

The way to make the park available to travellers, and thus win new friends for Portage, is to let them know about it. It should not be too difficult to arrange for attractive signs a mile or two either side of the city. A sign informing tourists that a large park with complete picnic facilities is available here would enable them to watch for the sign in the city, and thus enjoy the hospitality for which Portage is justly famous.

Similarly, a few attractive and well-placed signs informing travellers that a tourist information office is located here would enable them to stop and get any advice they seek. If more tourists can be attracted to and impressed by the information office, more people will learn of our local attractions. The long term result cannot be anything but good for Portage and for the whole district.

Let's get out and beat our chests a bit. We have many wonderful advantages here, so how about telling people about them in a more positive manner? It will pay big dividends.

★ ★ ★

Frightening situation

(The Press, Neepawa, Man.)

Developments in the Middle East have produced the biggest threat of war since the Korean conflict. Internal difficulties in a couple of the world's smallest countries, together with international ramifications, have caused all of the major nations to flex their military muscles and to make threatening gestures and provocative speeches.

Government officials in world capitals are on edge as they wait each others next move, as they fear and prepare for the worst. Everybody asks the question, "Is this the spark that will push the world over the brink", but none yet know the answer.

Ordinary citizens are carrying on very much as they would normally. What with frequent war scares during the past decade proving groundless time after time, people have learned to more or less ignore them and are doing so again despite the fact that this situation appears more serious than any to date.

After all, what can the average citizen do? Worrying serves no useful purpose and, with an explosive situation that could erupt momentarily, ordinary pressures of public opinion are likely to be of little use even if we were well informed and able to judge what is best.

We who live in the free, democratic countries can but hope and pray that we have elected leaders who can guide our destinies wisely and well, and who are able themselves to seek that Higher Guidance which might well be our only hope.

Mystery car being sought in river 92 miles north

RCMP are continuing dragging operations for a car which is alleged to have plunged into the Columbia River, 92 miles north of Revelstoke on the Big Bend highway.

The accident occurred when motorists following an automobile reported seeing it go over the embankment.

Police have no information as to the identity of the occupant or occupants. Motorists following the car seemed confident that only one person was in it. — Revelstoke, Review.

STRANGLER FIR

The strangler fir, which grows in southern Florida, begins life in the top of another tree, grows downward and, when rooted, will choke the life from the other tree.

SPEED Kills

presented to SWNA members Life membership awards

Four veteran Saskatchewan weekly newspapermen were singled out for high honors at the 42nd annual convention of the Saskatchewan Weekly Newspapers Association held Friday and Saturday in the Bessborough hotel, Saskatoon.

Andrew King of Estevan, John Scott of Whitewood, Jim Greenblat of Swift Current and Ed. G. Quick of Weyburn were made honorary life members of SWNA, the organization they have all served faithfully for many years.

The awards are made only on retirement from active membership and in recognition of many years of service. Each of the newspapermen honored have at one time served as president of the association.

Mr. King, long-time publisher of the Estevan Mercury, who retired when the paper was sold early this year, was presented with his life membership by John Vopni, secretary-manager of SWNA. Mr. Vopni spoke of the pleasant associations he has had with Mr. King over the years as fellow newspapermen and as members of the SWNA. Mr. King was president of the group in 1931-32.

The presentation to Mr. Scott was made by Cliff Ashfield, editor of the Grenfell Sun. Mr. Ashfield said that Mr. Scott, who retired in 1955, had been in the newspaper business since 1892 and had published the Whitewood Herald continuously for 55 years. President of SWNA in 1932-33, Mr. Scott was a member of its parent body, the old Western Canada Press Association.

Jim Greenblat, editor of the Swift Current Sun until he retired in 1957 to become public relations director for the southwestern section, Saskatchewan Federated Co-ops, was presented with his award by Irwin McIntosh, editor of the North Battleford News-Optimist.

Mr. McIntosh said Mr. Greenblat had always been his ideal as a weekly newspaper editor. He said he was a man who loved his community and that through his "looking glass" thousands of people read his stories of Swift Current and its people. As editor of the Sun, Mr. Greenblat had written a column, "Thru the Looking Glass". He was president of SWNA in 1938-39.

In presenting the award to Mr. Quick, Bert McKay, editor of the Moosomin World-Spectator, paid tribute to the man who retired in July after publishing the Weyburn Review for 22 years. He had been in the printing and publishing business for more than 50 years and was SWNA president in 1946-47.

Mr. Vopni said that the awards marked an important milestone in the history of the newspaper group.

The presentation of newspaper competition awards saw a first introduced by SWNA with the new "correspondent of the year" award. Winner was Mrs. Ron Grisdale of Plunkett, correspondent for the Viscount Sun and runner-up was Mrs. M. E. Webb of Speers, correspondent for the North Battleford News-Optimist.

In presenting the award to Mrs. Grisdale, vice-president Walter Migowsky of Maple Creek paid tribute to all weekly newspaper correspondents. Without them, he

said, the papers couldn't be published.

To judge a winner for this new award, each member newspaper was asked to submit the name of one of his correspondents and the winner was picked from samples of their work.

R. S. Reid, editor of the Kindersley Clarion won two trophies, the Dominion Textile trophy for the best editorial page in all classes and the Saskatchewan Wheat Pool trophy for the best all-round newspaper with circulation 1,501 to 2,500.

The Yorkton Enterprise took the Printed Word trophy for the best all-round newspaper in its class, circulation over 2,500; the Touchwood Times won the Grain and Milling trophy for the best all-round newspaper with circulation of 700 and under; the Grenfell Sun won the Grain and Milling trophy for the best newspaper in the 701 to 1,500 circulation class.

Placing second and third in the editorial competition were the North Battleford News-Optimist and the Melville Advance. The News-Optimist also placed second as the best newspaper in its class, and the Swift Current Sun was third.

The Carrot River Observer, the Shaunavon Standard and the Watrous Manitou each stood second in its own class as best newspapers while the Aneroid News Magnet, the Wilkie Press and the Biggar Independent each placed third.

The awards were made at various banquets when the 162 delegates and guests entertained by the Saskatchewan government department of travel and information; Imperial Oil and the Canadian Petroleum Association; Federated Co-operatives Ltd.; and the Saskatchewan Wheat Pool.

Guest speakers at the functions were travel and information minister Russ Brown who appealed to the weekly newspapermen to help make the tourist industry a major one in Saskatchewan; and H. L. Fowler, secretary of Federated

NO PATIENT UPSURGE IN HOSPITAL PLAN

First 10 days of operation of the universal hospital scheme in Manitoba saw no appreciable difference in the number of patients in hospital, provincial health authorities reported.

Dr. Morley Elliott, deputy health minister, said a close check had been made on a number of hospitals, particularly in Greater Winnipeg, and that the increase in the number of patients admitted was slight.

Gordon L. Pickering, commissioner of hospitalization, reported that the number of Manitobans registered under the plan to the end of June stands at 855,535. Mr. Pickering said that this figure includes a number of duplications. "Elimination of these duplications will be made within three months," the commissioner added.

In addition, new registrations covering approximately 3,500 people have been received since the beginning of July.

"We are very pleased with results obtained in the registration," Mr. Pickering said.

NEW EXECUTIVE of Saskatchewan Weekly Newspapers Association elected at August convention, front row, left to right, Walter Migowsky, Maple Creek News, vice-president; Ken Millar, Semans Gazette, president; Irwin McIntosh, North Battleford News-Optimist, past president. Back row, left to right: Cliff Ashfield, Grenfell Sun; Dave Belbeck, Swift Current; Jim Adair, Eaton Enterprise, and J. A. Vopni, Secretary-Manager.

Co-ops. He said weekly newspapers and co-operatives have much in common—they are both community builders.

At an afternoon business session, delegates passed a motion that the board of directors go ahead with the preparation of a data manual listing the weekly newspapers in the province, the districts they serve and other information directed at selling advertising and creating more interest among advertisers in Saskatchewan's weeklies.

Addressing the session were John Miles, assistant advertising manager of the Regina Leader-Post and Ken Cooper of the Cooper Advertising Agencies, Saskatoon.

President Irwin McIntosh at the opening sessions reported that business was good for Saskatchewan's weekly newspapers in 1957, despite stiff competition.

He said Saskatchewan weekly newspapers were "second to none in Canada in appearance, content, style and modern publishing ideas," and he reported that this province has more weeklies per capita than any other in Canada.

Delegates adopted the report of John Vopni, secretary-manager. Cecil Day, president of the Canadian Weekly Newspapers Association from Liverpool, N.S., brought greetings from that body.

Bill Telfer, Toronto, manager director of CWNA, urged Saskatchewan delegates to attend the national convention in Toronto, September 4 to 6.

New officers installed by Dr. Sam Wynn of Yorkton, are Ken Miller of the Semans Gazette, president; Irwin Mac Intosh, past president; Walter Migowsky, Maple Creek News, vice-president; John Vopni, secretary-manager; Cliff Ashfield, Grenfell Sun; Jim Adair, Eaton Enterprise, and Dave Belbeck, Swift Current Sun, directors.

On Saturday morning delegates toured the University of Saskatchewan and the new Saskatchewan Power Corporation generating plant as guests of SPC.

A highway can hypnotize you!

This is the time for long vacation trips on Canada's highways, many of them modern, four-way, ribbon-smooth thoroughways, incredibly easy to drive on. And that, warns the Canadian Highway Safety Conference, is precisely the danger.

Driving a car along one of the modern super-highways can seem so safe and easy that it becomes a tranquilizer and subtly lulls the motorist away from concentration on his driving to a perilous condition in which he gives little thought to what he is doing. There are two major dangers here: first, he falls asleep without warning; second, he reacts too slowly in emergencies.

The result can be death, not only to him but to everyone concerned.

The Conference offers these suggestions when driving a super-highway:

Before leaving on a long trip, get plenty of sleep. Wear clothing that is comfortable and loose. Stop every hour or so and get out and walk around. Carry a thermos of coffee in the car. Vary the car speed. Tune the radio to lively music. Now and then, when it's safe, glance at the car's hood or the decoration over the radiator to change your eyes' focus. Ask one of the passengers in the car to watch the speedometer; an inattentive driver runs the speed to a dangerous level without noticing it.

Driving at night is even more hazardous. Run the windshield wipers at intervals, keep switching the light beam from low to high to low. Turn dash lights off or almost off.

Drivers realizing they are becoming affected by "highway hypnosis" should fight it every way. Sing, smoke, beat a rhythm with their feet, talk to passengers, even get into an argument (but don't get too intense and forget driving!). Best and safest of all—stop!

Be always aware, cautions CHSC, that everyone, no matter how assured he might be of his own ability to drive, can become hypnotized by the highway on a long, uneventful trip.

New hospital to take at least 5 years

Reporting to the regular meeting of town council, Councillor L. Dow informed the mayor and council that the hospital board had met with two representatives from the Department of Public Health in regard to a new hospital. The board was told that the building of a new hospital in Assiniboia would be under a long term policy, taking at least five years. They were advised to start a reserve trust fund, earmarked for building the new hospital, with the funds coming from an increased mill rate. It is expected that the hospital board will study the recommendations made and make an announcement at later date.—The Times, Assiniboia, Sask.

Firemen's Training School

The Maidstone Volunteer Fire Brigade, after it had made arrangements for a new fire fighting engine, decided to hold a Firemen's Training School, and applied to the Fire Commissioner's Office to have one held here.

In due course, the Fire Commissioner informed the local brigade that such a school would be held in Maidstone on August 12, 13 and 14.

The members of the local brigade are making all necessary arrangements for this school, and an invitation is extended to all fire brigades of the surrounding towns to attend. Rural and Town councillors, as well as anyone interested are welcome to attend.

This fire fighting course under the supervision of Chief Instructor M. D. (Doug) Gathercole, is primarily for Volunteer Fire Department members, who have never attended a fire school or have not attended a school for a two-year period. The course consists of approximately 10 hours of instruction by lectures, films and practical care and use of first aid fire equipment, ventilation, smoke masks, tools and equipment.

Time will be spent with the fire apparatus and will include practical work on pumping water, hose laying, fire pumps and hydraulics, ladders and rescue and will be followed by a fire demonstration extinguishing oil pit and structural fires.

The first course for Volunteer Fire Fighters was conducted in August, 1947. Since that date, hundreds of Fire Fighters in Saskatchewan have availed themselves of this opportunity to increase their knowledge of modern fire fighting techniques. It is felt, that as a result of this increased efficiency of the Volunteer Fire Fighters, that the Saskatchewan fire losses have been reduced substantially.—The Mirror, Maidstone, Sask.

GOOD PEOPLE

In primitive societies the taking of interest for the loan of goods or services rendered in transactions between members of the same community was unknown.

YOU CAN SLEEP TO-NIGHT
AND RELIEVE NERVOUSNESS ALLDAY TO-MORROW!
To be happy and tranquil instead of nervous or for a good night's sleep, take Sedin tablets according to directions.
SEDICIN \$1.00—\$4.95
TABLETS (Drug Stores Only)

More Comfort Wearing FALSE TEETH

Here is a pleasant way to overcome loose plate discomfort. FASTEETH, an improved powder, sprinkled on upper and lower plates holds them firmer so that they feel more comfortable. No gummy, goosy, pasty taste or feeling. It's alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug counter.

LIFE MEMBERSHIP AWARDS PRESENTED—At the 42nd annual SWNA convention, held at the Bessborough Hotel, Saskatoon, life membership awards were presented to Andrew King, Estevan; John Scott, Whitewood; Jim Greenblat, Swift Current, and Ed. G. Quick, Weyburn. These were presented on retirement from active membership, and in recognition of many years of service to the Association.
